DAILY KENTUCKIAN

"GREATER HOPKINS-
VILLE WANTS YOU."

Established 1879 Vol. XL--Daily Vol. 1. No. 102

HOPKINSVILLE, KENTUCKY, SATURDAY, JULY 6, 1918.

Price 3 Cents

EDITORIAL COMMENT

Call 449 if you fail to get the Kentuckian promptly. And if you have a news item, phone it to the same number.

Lyons and Brest, as well as Paris, have "treets after President Wilson."

The Sultan of Turkey is dead but information is lacking as to how many widows he left.

Evansville has a "boy orator" who distinguished himself in a Fourth of July effort. He is 16 years old and his name is Wm. G. Carleton.

The heirs of the Turkish throne, while it lasts, is Yusseff Izzeddino, a son of the former sultan Abdul Aziz, who became Abdul Aswas.

Paris had a sort of Fourth of July celebration, but they lacked some Hopkinsville oratory to make it the real thing.

From Maine to California from small unknown docks to world famous yards, one after another, big ships and little were launched on July 4th until 100 had been set afloat.

The War Industries Board has addressed a letter to all newspaper publishers asking stringent economies to conserve news print. On and after July 15, no unsold copies will be returned. Sample copies are under the ban; advertisers are permitted only one copy; the practice of forcing copies on some news dealers on condition of holding certain territory is discontinued; copies can not be bought back by agents at any price and all free exchange must, discontinue.

FOLLOWING THE FLAG

Carl Lander left last night for a naval training camp. He recently passed a successful examination at Louisville.

William Aaron Knight and Walter Johnson enlisted in the navy at Louisville. Both were accepted and sent to the Great Lakes Naval Training Station near Chicago July 2.

Thos. R. Goldthwaite, stationed at Camp McArthur, Waco, Tex., is here on a visit to his mother, Mrs. Willie Goldthwaite. He is in the regular army.

Blunzy Walker has advised his parents, Mr. and Mrs. J. T. Walker, of his safe arrival in France. He went direct from the Great Lakes Training Camp for the Navy.

Jan. D. West, son of Dr. P. E. West, now of Detroit, Mich., has enlisted in the ordinance department corps of the U. S. A. and is taking mechanical training at Columbus, O. for overseas service. He is 19 years old.

Prof. E. H. Weathers, after conducting the institute here this week, left last night for Tompkinsville where he will instruct the institute next week for Monroe county. Mrs. Weathers was here yesterday with their son and they left for Elktion for a visit to relatives.

Dr. L. C. Adcock, of Omaha, Neb., accompanied by Mr. G. L. Meyers, a prominent druggist of Omaha, is on a visit to his parents, Mr. and Mrs. W. E. Adcock, near Church Hill. Recently Dr. Adcock volunteered for service in the Medical Reserve Corps and on Thursday he was notified of his commission as captain. He and Mr. Meyers leave Monday for their home. They came through in an auto and will return in the same manner.

RECORD TO BE PROUD OF.

The fiscal year just ended has broken all records in the nation's history for shipbuilding. The increase to the merchant marine gives the United States today 10,040,659 gross tons. In the twelve months 1,622 new ships were launched.

MRS. BAILEY AT HOSPITAL.

Mrs. L. E. Bailey was taken to the Smart Hospital last night where she underwent a very serious operation this morning.

PRISONERS REACH 13,000

MANY SCHOOLS OPEN MONDAY

INSTITUTE CLOSED YESTERDAY AFTERNOON AFTER SUCCESSFUL WEEK'S WORK

The Teacher's Institute for Christian county closed yesterday afternoon at 3:30 o'clock after a week of very excellent and profitable work. The teachers were ably instructed by Prof. E. B. Weathers, of Franklin, Ky., and Miss Clark, of Owensboro, who did much good work along primary lines.

County Supt. Foster announced that all the schools in the four divisions in the northern half of the county will be open Monday morning for their annual sessions. However, there are many schools in the extreme end and other parts of the county still without teachers. Mr. Foster stated that he will be compelled to go to Tennessee and other places for teachers unless they can be secured in this county at an early date.

The teachers were urged to economize wherever possible without impairing the effectiveness and efficiency of the work. They were urged also to see that a U. S. flag floats over every school and that every school have a service flag for the district.

The institute was voted a success in every way and Mr. Weathers received many complimentary expressions of his work this year as did Supt. Foster for his conduct of the work of the week. At the close of the session yesterday the teachers adopted unanimously the following resolutions:

1st.—That we, the teachers of Christian county, Kentucky, in institute assembled, are not dead to the fact that a great conflict is now waging among the nations of the earth between right and wrong; that Prussian militarism, guided by a ruthless and insatiable hand, will soon dominate the world if left unchecked; that we are deeply conscious of the fact that this is the most critical period of our national life, and therefore a supreme time for perfect devotion to the cause of truth and justice, and self-sacrifice even to the point of death; that our sympathy is centered in the broken American home, saddened by the absence of a father or one or more sons away on the Nation's business; that our devotion and our prayers constantly attend the destiny of that stalwart and picturesque specimen of American manhood—Woodrow Wilson.

2nd.—That since we believe in a more thorough teaching of the subjects of history, geography and civics during this great history making epoch, we pledge ourselves to give special emphasis to this particular phase of our work during the ensuing year. We believe that the school is and ought to be the source of knowledge for the community in which it exists, and promise to use this channel for the dissemination of war information; that we heartily endorse the great work of the Red Cross and the sale of Thrift Stamps, and as a means of aid to this end, promise to organize in our respective schools a Junior Red Cross Club and a Thrift Stamp Club; that we may keep abreast the great events now transpiring in the World War, we pledge ourselves to purchase such literature as we may deem expedient to this end.

3d.—That we are to congratulate ourselves on our good fortune to have with us as instructor again this year one of Kentucky's most brilliant young educators, Hon. Bruce Weathers, of Franklin, Ky. Prof. Weathers' talks were very inspiring and might be classed as pedagogical homilies; that we were fortunate, too, in having with us an assistant instructor, Miss Clark, whose simple illustrations for teaching the primary classes thrilled the novice in teaching with delight and enthusiasm.

4th.—That we desire to thank Mr. and Mrs. L. E. Foster for the many little acts of courtesy shown us individually and collectively during the week, and especially for the big and delightful entertainment given in our

U. S. TROOP SHIP SINKS SUB

PASSENGERS REACHING AMERICA SAW FOUR U-BOATS DESTROYED.

An Atlantic Port, July 5.—Destruction in European water of four German submarines by British transports and by American and British destroyers conveying them was described by passengers who arrived here today on an English liner. The transports, one of which was carrying 7,000 American soldiers to Europe, accounted for three of the U-boats and the destroyers sank the other two, according to the voyagers. Officers of the liner confirmed their stories.

The passengers witnessed the torpedoing of the 5,436 ton British freighter Oriana which was part of their convoy when the fleet was approximately a day out, steaming west from the British Isles. The Oriana, bound in ballast for the United States, was sent to the bottom by an unseen submarine. A moment later, however, an American destroyer in the protecting fleet detected the undersea boat below the surface and dropped a depth charge, making a direct hit, according to the story related here. The same evening a U-boat was sighted by the passenger vessel whose gunners sank it by shell fire.

The other three submarines were destroyed, according to the returned travelers, on the eastward trip of another convoy. They declared that a large British transport with 7,000 American troops aboard, rammed a submarine, which was revealed with two others in the sudden lifting of a heavy fog. Almost simultaneously with the disappearance of the first submarine beneath the transport's bow, the big ship's gunners accounted for another of the German craft while a British destroyer disposed of a third.

MORE PEACE TALK IN BERLIN

Amsterdam, July 5.—In a leading article the Socialist newspaper Vorwaerts, of Berlin, declares that the desire of the German people for speedy peace with honor is so strong that sensible accommodation from the other side would be bound to lead to its realization.

PURELY PERSONAL

Miss Mabel Nash left for her home in Cincinnati yesterday after a visit to her mother, Mrs. L. Nash.

Miss Mary Sydnor, of Todd county, is visiting Mrs. N. G. Rust.

Mrs. Louise Major is visiting her aunt, Mrs. Baird, in Ashville, N. C.

Mrs. John T. Edmunds is visiting relatives in Columbia, Tenn.

Miss Lena Parker, of Slaughter'sville, Ky., is visiting Mrs. C. A. Ogden.

Mr. and Mrs. Geo. B. Cook, of Cincinnati, are visiting Col. and Mrs. W. R. Howell. Mr. Cook is a brother of Mrs. Howell.

STILL INVESTIGATING.

A double investigation into the cause of the fire and explosions that wrecked the Semet-Solvay T. N. T. plant, near Syracuse, is under way. Sixty persons were killed and more than three-score were injured.

honor at their beautiful home at the close of Wednesday's session; that we are exceedingly glad that Mrs. Foster with her cultured voice and gracious manners honored us with her presence in the song service.

Chairman Resolutions Committee.
MR. JOHN KEITH.
MISS ERMA ARMSTRONG.
MISS KATHERINE MAJOR.
MISS SAMMIE HILL.

EMPTY U. S. TRANSPORT TORPEDOED

(By International News Service.)

Washington, July 5.—The United States transport, Covington, was sunk by a German submarine July 1, according to a report received tonight from Vice Admiral Simms. Six members of the transport's crew are missing. All other officers and men were landed at a French port. No troops were on board. Covington was formerly the Cincinnati one of the German ships taken over by this Government when it entered the war.

A torpedo struck the engine room and the engine room was rapidly flooded. With motor power gone the vessel, helpless and facing the possibility of another ship in the convoy being torpedoed it was abandoned and the crew taken aboard a destroyer. The submarine was not seen. The Covington sank the following day. The Covington was of 16,000 tons. She had no army personnel or passengers aboard when torpedoed, it is assumed as no troops were aboard. The ship was bound for America and it is also assumed that it was torpedoed off the French coast as the crew landed at a French port.

NOT TO PUBLISH SHIP SAILINGS

(By International News Service.)

Washington, July 5.—Secretary Daniels this afternoon requested all newspapers to refrain from mentioning ship sailings. It is believed that danger of submarines caused the request.

PEASANTS REVOLT AGAINST HUNS IN UKRAINIA

GUERRILLA CORPS IS FULLY EQUIPPED; FAMINE SERIOUS IN LITTLE RUSSIA.

Moscow, June 30.—A sanguinary battle is reported to have been fought at Yekaterinoslav, between German-Ukrainian White Guard and peasants. The latter are said to number 200,000, and to be equipped with artillery and machine guns.

The factories in that region, it is said, are closing because the workmen are enlisting in guerrilla corps. The famine situation is becoming more serious in the province of Tchernigov, in Little Russia.

Reports from the Caucasus say that several Armenian politicians have been shot in the Alexandropol district of Russia Armenia by order of the Turkish military commanders.

IF GERMANY MOVED INTO THE STATE OF TEXAS

Despite the volumes and miles of columns that have been printed about everything pertaining to the war, how many Americans realize that the whole empire of Germany could be put away inside of a single American state? Texas could contain all of Germany and have room enough left over to accommodate New York and New Jersey.

One of the Review and Reviews staff of editors of "2000 Questions and Answers About the War" dug that fact out in trying to answer a question by a common-sense citizen who asked, "Just how big is this damned old Germany anyway? Don't tell me in square miles, for the love of Mike! Square miles don't mean anything in my young life."

"Fifteen Germanies," says the editor in the book, "could be put away inside of our own United States." And there would be room for a few Americans to walk around on the fringes, at that.

HOUSE VOTES RESOLUTIONS

GIVING PRESIDENT AUTHORITY TO TAKE OVER TELEGRAPH TELEPHONE WIRES.

(By International News Service.)

Washington, July 5.—The House by a vote of 221 to 4 passed resolutions authorizing the President to take possession of and operate the telegraph and telephone lines of the country. This action was prompted in a large measure, by the calling of a strike by the Western Union operators to take effect Monday July 8.

The passage of the resolution by the house ends the matter until after the recess of Congress, which begins tomorrow night. No attempt will be made to pass the resolution thru the Senate until after the recess which lasts thirty days. In the meantime should the threatened strike of the Western Union be executed, the president would be without authority to interfere. Senator Martin received a note from the President saying if it is not practicable to pass the resolution in the Senate before recess he would not insist upon it.

BASEBALL STAR MUST WORK

(By International News Service.)

Dallas, Tex., July 5.—Local examining board today decreed that Sam Lewis, pitcher in the Texas League, engaged in a productive occupation or be placed in class one. Lewis is married and in class four. This is the first ruling on the work or fight order as affects baseball.

MOHAMMED FIFTH TURKISH SULTAN

CROWNED HIS REIGN OF WEAKNESS BY MAKING HIS SUBJECTS VASSALS TO KAISER.

Amsterdam, July 4.—Mohammed V, sultan of Turkey, died at 7 o'clock last night, says a Constantinople dispatch received here by way of Vienna, aged 74.

The next heir to the throne, Yussef Izzeddino, is the son of the late Sultan Abdul Aziz and was therefore first cousin of Mohammed V. Mohammed's eldest son Zia Eddine, a man now over 30, is ninth in the line of succession.

Mohammed V, thirty-fifth sovereign of Turkey, in direct descent of the House of Osman, founder of the empire, came to the throne of a coup-d'etat on April 27, 1909, after having been held for thirty-three years a prisoner by his brother, Sultan Abdul II, in the royal palace and gardens in Constantinople. The arming Abdul II intended that his own son, Prince Burhan Eddine, described as the most brilliant and gifted of the princes of the House of Osman, should succeed him. But this plan was thwarted when parliament deposed Abdul and placed his prisoner brother, Mohammed Reschad Effendi, on the throne as Mohammed V.

The Turkish empire has paid dearly for his entry into the great war Russia overran Armenia and the British drove the Turks far up the valleys of Euphrates and the Tigris and took Jerusalem, Bagdad and other important cities from them with great loss of life and treasure. Under him Turkey has become virtually a German vassal in the autocratic scheme of the German powers for Teutonic ascendancy in central Europe.

All you are asked to do is buy only necessary things and then loan—not give—your savings to your Government to help fight your war.

EVERY DAY ADDS A THOUSAND OR TWO MORE TO WIRE CAGES

CROWDER IS VERY MODEST

(By International News Service.)

Washington, July 5.—Major Gen. Crowder, the man responsible for the success of the selective draft, today asked congress not to elevate him to a Lieutenant Generalcy, modestly saying he deserved no especial recognition for his draft work.

INTERVENTION IN RUSSIA

(By International News Service.)

Washington, July 5.—Allied military intervention in Russia, with or without aid from America, now looms up as a serious possibility. New evidence for the necessity for this step was placed before President Wilson to-night.

QUICK PUNISHMENT

Camp Dodge, Ia., July 5.—Three Alabama negro soldiers, who had been convicted by courtmartial of "assaulting and outraging" a young white girl on the cantonment grounds May 24, were hanged here today, with virtually the entire division witnessing the execution.

The traps were sprung simultaneously. Death was instantaneous. The negroes marched to the scaffold singing.

EXPRESSMEN GET INCREASE

(By International News Service.)

New York, July 5.—Expressmen through the country will receive an increase in wages dating from July 1, according to an announcement by the express administration to-night.

TENNESSEE-KENTUCKY MINES ESTABLISH NEW RECORD IN COAL PRODUCTION.

(By International News Service.)

Knoxville, Tenn., July 5.—An increased production of 17,000 tons of coal in one week is the record made by the miners in the East Tennessee-Southeastern Kentucky coal fields. The high mark was attained the week between June 1 and 9.

On Saturday, June 1, the total production for the preceding week amounted to 268,000 net tons for the week ending June 8, the amount was 285,000 tons.

At no time since the inauguration of the chart system in the office of the district fuel representative has the tonnage been so great. Earlier in the year the amount of coal mined dropped to about 150,000 tons and since that time the rise in production has gradually increased.

Increased car service on all railroad lines and the fact that the miners are exerting every possible effort to increase production are responsible for the splendid record.

IRISH GUNS SEIZED.

(By International News Service.)

London, July 5.—Hundreds of guns have been seized southwest of Dublin and many arrests made.

Give our boys in the army and navy every fighting chance. Pledge yourself to save to the utmost of your ability and to buy War Savings Stamps.

(By International News Service.)

London, June 5.—The allies made more headway to-day gaining ground in several places and taking more prisoners.

The frequent thrusts during the last week have resulted in several local successes and the prisoners are mounting well up toward 12,000 for the week, something more than one-third of them on the Italian front.

The threatened fifth offensive has not materialized and the policy of the allies of bantering the Huns with attacks of their own may be what is retarding the movement.

The number of prisoners taken by the Australians and Americans yesterday has been increased to 1500 by reports tonight.

FRENCH TAKE SOME MORE.

(By International News Service.)

Washington, July 5.—On the Franco-German front operations are confined to minor enterprises, the French taking more prisoners in several sectors. Artillery activity marked the day on the Aisne and Arve fronts.

TOTALLED RAISED TO 5219.

(By International News Service.)

Rome, July 5.—The Italians in the last twenty-four hours extended their gains near the mouth of the Piave, taking 419 new prisoners and capturing six 105 millimeter Howitzers with a number of machine guns.

GOOD WEEK'S WORK.

(By International News Service.)

During the past week the British have brought down 195 German airplanes. Fifty-two British planes were lost.

IMPORTANT DECISIONS TAKEN.

(By International News Service.)

Paris, July 5.—The supreme war council held its seventh session to-day. The press is permitted to state that "important decisions" were taken.

AMERICAN PRINCIPLES ACCEPTED BY THE ALLIES

The appeal to America to go over and fight in a large way on European soil involved two great victories, one immediate and the other prospective. The immediate victory was that of democratic cause among the Allies. Without selfishness and at profound sacrifice, America accepted the call to send her sons to fight in Europe. In a separate quarrel of our own, we should have no more fear of Germany than of Turkey. For a number of decades we have looked on at the dangerous rivalry of the empire-builders of Europe, meddling everywhere and embroiling all peoples. Our principles are definitely understood by the Allies. And they know that America goes to Europe solely on the understanding that we are to have henceforth a world safe for all people; a league of democratic self-governing nations; the principle of trusteeship over backward regions, rather than that of possession and exploitation. This is the first great victory, and it was won when America changed her program at the appeal of the Allies and began to ship troops so fast as to justify the statement that we were sending "an army each month." For a long time the Allies had not cooperated, because they were fighting what should have been a good common cause, with an admixture of separate aims and a lack of full trust in one another. They are now using above those selfish aims, are casting aside distrust, and are accepting American principles—which are not those of separate advantage but those of common welfare of future union and harmony. From "The Progress of the World," in the American Review of Reviews for July, 1918.

OUR SERVICE FLAG

Jack Dempsey knocked out Bob Devre after a round of one minute and fifteen seconds, at Joplin, Mo.

The German government is unflinchingly opposed to a general election during the war and has submitted a bill prolonging the life of the present reichstag until 1920.

The army casualty list July 4 contained 52 names, divided as follows: Killed in action, 9; died of wounds, 6; died of other accidents and other causes, 3; died of disease, 5; wounded severely 26; missing in action, 2; prisoner, 1.

Secretary Daniels was the chief speaker at a night meeting in New York on the Fourth, when a remarkable pageant was staged at the city stadium by the Mayor's Committee of Women of the National Defense.

Two arrests were made at Orange Texas, following a fire that destroyed the plant of the Orange Maritime Corporation, resulting in a \$1,000,000 loss to the plant and a loss of three 2,000-ton schooners valued at \$225,000 each.

England as well as France, joined hands with America in celebrating the Fourth of July. The celebration in London included a baseball game between the Navy and Army, attended by King George and the royal family. The Navy won 2 to 1.

Democracy triumphant marched before President Wilson Thursday night in Washington. Ten thousand soldiers, sailors, marines, women and children representing every nation allied against Germany, tramped by the capital. It was the close of a perfect day for Washington, as the entire pageant was given over to patriotic pageants by citizens of kindred lands in the present struggle.

The allies celebrated the Fourth in befitting manner. The British and Americans opposite Amiens took 1500 prisoners and six square miles of territory. The French near Amiens took half a mile of trenches and 1066 prisoners. The Italians made further advances and took 243 prisoners. The Americans held all new positions taken Tuesday. The day netted about 3,000 Hun who couldn't stand open fighting.

American infantry detachments assisted the Australians Thursday morning in their advance of some ten miles east of Amiens, when they captured the Village of Hamel. The operation was supported by tanks. "We gained and hold the woods of Valre and Hamel as well as the village of Hamel," says the official statement and adds, "In conjunction with the above, Australians east of the Villers-Ancra line advanced their line to a depth of 500 yards on a front of twelve hundred yards. More than 1500 prisoners were taken. In both operations and many machine guns were captured."

TREAT CAPTIVE GERMANS KINDLY

French Generous to Prisoners Despite Brutal Course of Enemy.

ARE GLAD TO BE OUT OF IT

Sight of Long American Columns Destroys Hun Hopes of Victory—Live Like Happy Family in Prison Camp.

With the American Forces in France. —France knows that her prisoners in Germany are treated badly, but German prisoners are treated humanely and even generously in French prisons just the same, writes Don Martin in the New York Herald. I asked an officer in charge of a French prison camp why this is, and he shrugged his shoulders and said merely: "Ah!"

Unless one could see the gesture accompanying the invariable "Ah!" he would hardly know what meaning to attach to it. It really means: "Oh, what's the use of being brutal to individuals just because some one else is? We wish we could, but we can't."

I have inspected several prisons, some large and some small, and in every one I have found the Germans treated quite as well as civil prisoners in normal times and in many instances better. Officers are not humiliated in any way. In fact they receive better treatment, a stranger would think, than they are really entitled to.

Prisoners Live Happily. On a low hill about 1,000 feet from a main road of France stands a prison—five low wooden buildings surrounded by two barbed wire fences, with armed pickets always patrolling outside. Here are 200 Germans, many of them prisoners taken in the early battle of the Somme, but some taken more recently. They are all privateers and constitute as happy a family as one could find where personal liberty is the one thing desired and denied.

The Germans stood at their barbed fences hours at a time and watched the endless line of soldiers. When it was the blue of France that was moving past the Germans were not particularly interested. They had seen that for years. They know France always has had an endless line of everything needed for war. But when they saw the khaki of America filling or colling by for a whole day and then for another, and heard the muddy shuffle of feet through the night, there was a change in the dull expression of those German eyes. It was at this time that I went to the prison to learn what they thought of what they had seen. First it should be stated that these prisoners see little of recent developments in the war. They must form their opinions from such fragments of conversation as they hear from their keepers and from what they see, as, for instance, from the long, long line of Americans, the first they had seen.

In this particular prison the newcomers had brought the news situation up to early spring, but as for the big offensive the prisoners knew only that there probably would be one.

Americans Surprise Germans. When I asked if there was a German among the two hundred who could speak English, a good looking young man, with a typical Teutonic mustache, red cheeks, a glow of health, was called out. He stepped into my presence like an automaton, clicked his heels together and saluted the French captain. He told me he was a private; that he has a home in Lucerne, Switzerland; that he fought eight months, but was never wounded; that he is in the whole sale dry goods business in Berlin, and that he does business with John Wamaker, Marshall Field and Stern Brothers.

"What do you think of all the Americans you have seen passing here recently?" I asked him.

"I have seen many Americans," he said. "I was surprised that you have so many in France."

Another prisoner, less prepossessing in appearance than the first, was asked about things in general. He spoke English poorly.

"I live in Berlin and work in a bank, but was in the war for two years. When the war is over I am going to Switzerland to live. I would go to America, but they don't like Germans over there any more."

"Why are you going to leave Germany?"

For an answer there was a shrug of shoulders and a half smile, half smile. "Are you satisfied here?"

"It's a lot better than being in a grave where a lot of them are."

HOW THIS NERVOUS WOMAN GOT WELL

Told by Herself. Her Sincerity Should Convince Others.

Christopher, Ill.—"For four years I suffered from irregularities, weakness, nervousness, and a run down condition. Two of our best doctors failed to do me any good. I heard so much about what Lydia E. Pinkham's Vegetable Compound had done for others, I tried it and was cured. I am no longer nervous, am regular, and in excellent health. I believe the Compound will cure any female trouble."—Mrs. ALICE HELLER, Christopher, Ill.

Nervousness is often a symptom of weakness or some functional derangement, which may be overcome by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, as thousands of women have found by experience. If complications exist, write Lydia E. Pinkham Medicine Co., Lynn, Mass., for suggestions in regard to your ailment. The result of its long experience is at your service.

ERROR STAMPS BRING \$20,000

Inverted Airplane on New Impression Creates Big Value—Bought by Colonel Green.

New York.—A sheet of 100 of the new postal airplane stamps, but with the airplane turned upside down through an error made by the bureau of engraving and printing at Washington, has been purchased for \$20,000 by Col. E. H. R. Green of Texas, son of the late Hettie Green. Over a window counter at the post office in Washington this sheet sold for \$24.

So far as is known here, this is the only sheet that escaped the vigilance of the Washington postal authorities. Colonel Green said here he planned to retain a portion of the sheet for his collection and dispose of the other nine hundred stamps. It is predicted by philatelists that if the sheet proves to be the only one in existence outside the government ownership, the stamp sheet will be a philatelic value of \$25,000.

Variation of Mistletoe.

There are more varieties of mistletoe growing about the world than could be named in a column of newspaper print, but the commonest in America is that which the botanist, Nuttall, named after the Greek fashion, "tree thief," or phoradendron.

Must have good health, ambition, clean record and a determination to work hard for self development. Position is permanent. All applications confidential. Address "New York" care of Kentuckian. 97-5004f

BLASTS KAISER'S HOPE OF VICTORY

Italian Invents Canned Lightning Capable of Destroying Trenches of Enemy.

TERRIBLE ENGINE OF DEATH

Claimed Invention Could End War in Thirty Days and Allies Could March Unchallenged Into Berlin. Tests Prove Its Value.

Rome.—The Kaiser's dream of victory and world supremacy may be blasted out by "canned lightning," a terrible death engine invented by an Italian scientist. Bazzling swords of fire, more deadly than any highest explosives, followed by annihilating explosions, are capable of destroying enemy trenches with one blinding flash, according to his claims. Mine sweepers equipped with this device could fire mines thousands of yards distant. (In the land, "canned lightning" could be used to form a most successful barrage and could wipe out the defenders of German trenches with unerring certainty.

The scientist is credited with having discovered a means of concentrating and reflecting electric rays in such a manner as to produce the results described. It is reported that this inventor has proved to representatives of his government that electric current can be concentrated and directed in rays.

Tests Held on Banks of Tiber.

In describing the results of these tests, held on the banks of the historic Tiber, F. H. Randall, writing in the Illustrated World, says that the scientist was asked to turn through a three-inch plank of hardwood. In an instant the writer says, the plank was seared and broken as if it had been broken by lightning.

On the Tiber, the scientist is reported to have exploded a bomb along the bank of the river and the other in the bed of the stream. Within ten minutes the bomb along the bank exploded. It required a much longer time to explode the other bomb, but this, too, was finally accomplished. The entire outfit used by the inventor was placed on a single small barge.

An approximate idea of the power of the electric rays may be obtained by watching an electric furnace at work. These rays cut the hardest steel like butter. To flash such a flame through an airplane, a submarine, a battleship or a trench would leave a total wreck. Mines placed in the North sea by the Germans could be eliminated and mine sweepers could destroy these hidden dangers of the sea within thousands of yards of the ship.

Death to Airplanes.

In a possible description, Mr. Randall paints a picture of what would happen if this machine is action. The airplanes or any fleet of them would fall to earth, a crumpled wreck. A touch of a button, a flick of a switch, would suddenly bring down the fleet in a deadly speed. A few seconds would be all that was needed to have been a soaring airplane a few minutes before.

A scout could lurk with his deadly weapons, connected with the generator and concentrators behind the lines in shell holes or craters in "no man's land." When the enemy charged he could sweep the whole line as it passed, annihilating each successive wave of advancing Germans.

Mr. Randall says that he can't say that this has been done or will be done, but he doesn't dare to suggest that it cannot be accomplished. Light, heat and rays of other kind can be reflected. He concludes by saying:

"Once this problem is solved there will be no war. If the allies were possessed of equipment that would permit the acting at a distance of powerful electric currents, the war would be won in 30 days and allied troops would be marching unchallenged into Berlin."

TAXICAB DRIVERS KNIT BUT THEY ARE WOMEN

Cleveland, O.—One of the least surprising thing to be seen on the streets of Cleveland now is a taxicab driver calmly sitting in a taxi at its stand, purring and drooping, while sox and sweaters develop before your eyes. But the drivers are girls, for Cleveland is rapidly getting a large proportion of its day drivers from the other sex.

"NO CHILDREN" RULE BANNED

Landlords in Seattle Are Appealed to to Remove Signs From Their Buildings.

Seattle, Wash.—"No Children Allowed" signs must be removed by Seattle landlords from their properties, according to J. W. Spangler, vice president of the Seattle chamber of commerce. He has issued an appeal to rooming house proprietors, hotel men and owners of rental properties, declaring that owing to the scarcity of quarters for shipyard workers and others engaged in war work the situation in this city is becoming alarming.

AIR MAIL SERVICE HEAD

Capt. A. C. Weidenbach, recently appointed head of the government's airplane mail flyers, has seen three months' service abroad as a flyer with the American expeditionary forces. He went over as a private about a year ago. His present appointment is only temporary, as it is expected that within a short time he can easily develop the mail service to a point where it can be turned over to a successor.

Birds' Nest Soup.

The birds' nests from which the famous Chinese soup is made are built by a species of swallow that abounds on the coasts of Java, Ceylon and Borneo, and consists of a gelatinous substance obtained from marine plants. The nests are boiled either in chicken broth or in milk of almonds, and the result very much resembles vermicelli soup, except that it is far more costly.

Importance of the Follow-up.

Not all can be leaders; some must follow, notes a writer. It may be that you are eminently qualified to follow the leadership of some one. If so, follow gracefully. The follower is none the less honorable, none the less important, none the less admired.

Right of Choice.

You cannot always choose your associates, but you can select your companions, observes a sage. Circumstances may throw you with people who are distasteful to you, but circumstances cannot force you to take them to your hearts and into your confidence. Choice is stronger than environment. Wherever you are, you always have the privilege of choosing.

Live Right.

Right living and the right kind of work have changed many a stunted boy into a well-developed man, asserts an educator. Spiritual growth is not greatly aided by sitting down and thinking about it. Live in the sunshine of trust. Rely on a strength higher than your own. Reach out helpfully to others, and growth in the divine life will look after itself.

GLAD TO TESTIFY

Says Watoga Lady, "As To What Cardui Has Done For Me, So As To Help Others."

Watoga, W. Va.—Mrs. S. W. Gladwell, of this town, says: "When about 15 years of age, I suffered greatly... Sometimes would go a month or two, and I had terrible headache, backache, and bearing-down pains, and would just drag and had no appetite. Then... it would last... two weeks, and was so weakening, and my health was awful.

My mother bought me a bottle of Cardui, and I began to improve after taking the first bottle, so kept it up till I took three... I gained, and was well and strong, and I owe it all to Cardui.

I am married now and have 3 children... Have never had to have a doctor for female trouble, and just resort to Cardui if I need a tonic. I am glad to testify to what it has done for me, so as to help others."

If you are nervous or weak, have headaches, backaches, or any of the other ailments so common to women, why not give Cardui a trial? Recommended by many physicians. In use over 40 years. Begin taking Cardui today. It may be the very medicine you need.

GIRLS DO GOOD WORK

American Telephone Operators
Now Serving in France.

Hundred Who Were Sent Over Giving Such Efficient Service More Will Be Sent.

Washington.—To the 100 girls from America now doing service as military telephone operators in France, 100 more in training schools here may soon be added, leaving a reserve force of 400 more on file out of about 8,000 applicants.

The telephone is referred to as the "nerves of the army," and the young women who have been accepted for this work have undergone tests as severe as those to which a soldier at the front is subjected.

The telephone exchanges often are only a short distance behind the trenches, and the operator must possess both courage and calmness under dangerous circumstances.

"These girls," said Capt. E. J. Weston, who recruited the unit, are going to aid the people over there by their efficiency. In Paris it takes from 40 to 60 seconds to complete one call. Our girls are equipped to handle 300 calls an hour.

Other reports that have reached the war department from France show that the American hello girl is making good rapidly in a task as difficult as it is to be found back of the front line trenches.

The first group of operators entered training school here on January 12 for instruction in advanced telephony. They received practice in the largest New York exchanges and were then tried out at military cantonments. The course included talks upon personal hygiene.

The first contingent sailed on March 2. Other groups sailed in March and April and were stationed at supply depots and debarcation bases.

In addition to speaking both French and English fluently, every one of these girls has stood a loyalty test which proved that she could be trusted with military information.

The uniform prescribed consists of a coat and skirt of navy blue serge, shirtwaist of navy blue Palm Beach cloth and straight-brimmed hat of blue felt, while the regulation orange and white cord on the left sleeve is used to designate their rank, as operator, supervisor, chief operator and so on.

Charles Barnett, postmaster at Earlington, has resigned.

Origin of Pig, Buffalo, Horse.
Asia mainly furnished the pig, remarkable by its archaic type, which is very close to the Sus palustris, notes a writer. Through Turkestan arrived the buffalo, which adapted its body from its surroundings—becoming smaller and more alert. The Caucasus also owes the horse to Turkestan; we find neolithic remnants of the domesticated horse at Anau, while the animal is not found in Crete before the bronze age.

We Set Tire Standards

Why is it that United States Tires are setting new records for mileage and serviceability?

Why is it that the sales of these tires are constantly mounting by leaps and bounds?

The answer is found in the factories where United States Tires are made.

Standards of construction for these tires are higher than ever before known in the tire industry.

Makers of tire fabrics tell us that the standards we have given them for United States Tire fabrics are higher than any previously known.

Likewise through every process of construction from crude rubber to finished tires—we have set new and higher standards everywhere.

These standards work out on your car in the practical economy demanded by war-times.

United States Tires will raise any car to higher efficiency.

There is a type to suit every condition of service.

The nearest United States Sales and Service Depot dealer will cheerfully aid in selecting right tires for your requirements.

**United States Tires
are Good Tires**

We KNOW United States Tires are good tires. That's why we sell them.

WHAT AMERICA IS FIGHTING FOR

"BLINDED RULERS OF PRUSSIA
 HAVE ROUSED FORCES THEY
 KNEW LITTLE OF," SAYS
 WILSON.

MILITARISM IS DOOMED

**SPEAKING BESIDE WASHINGTON'S TOMB, EXECUTIVE RE-
 VIEWS THE BIRTH OF FREE
 MEN'S REVOLT.**

Washington, July 4.—From the shadow of Washington's tomb, President Wilson today declared America's declaration of independence to the people of the world with a pledge that the United States and its allies will not sheathe the sword in the war against the central powers until there is settled "once for all" for the world, what was settled for America in 1776.

Foreign born citizens of the United States, representing thirty-three nationalities who had placed wreaths of palms on the tomb in token of fealty to the principles laid down by the father of his country, cried their approval of his words in many languages and then stood with reverently bared heads while the voice of John McCormack soared over the hallowed ground in the notes of the "Star Spangled Banner."

"Washington and his associates like the Baron von Moltke, spoke and acted not for a class, but for a people," the president said. "It has been left far us to see to it that they have spoken and acted, not for a single people only, but for all mankind here in America we believe our participation in this present war will be only the fruitage of what they planned."

"What we seek is the reign of law based on the consent of the governed and sustained by the organized opinion of mankind."

The speaker's words as he emphasized the lesson which America will consider as a basis for peace were interrupted by a tumult of applause and words of approval in many tongues. The demonstration swept beyond the wall of black clad marines to the thousands of Americans scattered over the hills and through the woods surrounding Washington's home.

Throughout his address the president referred to the "peoples" who are fighting against autocracy streaming thereby the unity of purpose which actuates the allied nations. On the other hand, he differentiated between the people of Germany and their rulers as he has always done.

speaking of the isolated, friendless group of governments whose people are full in their hands.

A single reference to Russia gave a hint to the world that the United States still accounts that people of the world as democracy its allies. President Wilson enumerated the opponents of Germany as peoples of many races. "The people of stricken Russia, as among the rest, though they are for the moment unorganized and helpless," he said.

Special interest attached to his words, particularly to the statement that Russia's distress is only temporary because of plans now being formulated for giving assistance to the country. Boris Baklanoff, who was sent here as Russian ambassador during the Kerensky regime, was in the audience.

"There can be but one peace," said the president. "The settlement must be final. No half way decision is conceivable."

What We Fight For.

"These are the ends for which the associated peoples of the world are fighting and which must be succeeded upon before there can be peace."

"1.—The destruction of every arbitrary power anywhere that can arbitrarily, secretly and of its single choice, disturb the peace of the world; or if it cannot be presently destroyed, at the least its reduction to virtual impotence."

"2.—The settlement of every question, whether of territory or sovereignty, of economic arrangement or of political relationship, upon the basis of the free acceptance of that

settlement by the people immediately concerned and not upon the basis of the material interest or advantage of any other nation or people which may desire a different settlement for the sake of its own exterior influence or mastery.

"3.—The consent of all nations to be governed in their conduct towards each other by the same principles of honor and respect for the common law of civilized society that govern the individual citizens of all modern states in their relations with one another; to the end that all promises and covenants may be sacredly observed, no private plots or conspiracies hatched, no selfish injuries wrought with impunity and a mutual trust established upon the handsome foundation of a mutual respect for right."

"4.—The establishment of an organization of peace which shall make it certain that the combined power of free nations will check every invasion of right and serve to make peace and justice the more secure by affording a definite tribunal of opinion to which all must submit and by which every international readjustment that cannot be amicably agreed upon by the peoples directly concerned shall be sanctioned."

"These great objects can be put into a single sentence. What we seek is the reign of law, based on the consent of the government and sustained by the organized opinion of mankind."

"These great ends cannot be achieved by debating and seeking to reconcile and accommodate what statesmen may wish, with their projects for balances of power and of national opportunity. They can be realized only by the determination of what the thinking peoples of the world desire, with their longing hope for justice and for social freedom and opportunity."

**WHEAT PRICE
 FIXED AT \$2.13**

**LOCAL MILLERS ADVISED
 WHAT THEY MUST PAY
 THE FARMERS.**

The buying price of wheat on the local market has been fixed for the millers at \$2.13 a bushel.

This is six cents a bushel above last year's price, and is in conformity to the recent increase allowed in freight rates.

The establishing of the price will doubtless start the wheat in selling actively.

Up to now no price had been made owing to the uncertainty as to just what price would be paid. However the farmers had been delivering freely to the mills on storage contracts. In spite of the pessimistic reports during harvest, the yield is fairly good and the grain is being threshed out in perfect order.

FLAG SERVICE.

Presentation of Service Flag at the Frances Harned Memorial Sunday School, July 7th at 3:30 p. m.

CASE

"BETTER BE SAFE THAN SORRY"

Case Tractors represent the highest development of tractors. They are the pioneer tractors of America. They are backed by three-quarters of a century of successful experience in manufacturing farm machinery. They are a proved success—not an experiment.

Case Tractors are fully tested before they leave the factory. They must develop power in excess of their rating. They must qualify for the hard work demanded of them on the farm.

Case Tractors are made in five sizes. Each one carries a guarantee to perform as well, or better, than any other on a given job. There's a size for you.

CASE 9-18
Harrowing

STRANGER INJURED.

A stranger from Nashville named O'Brien was knocked from a motorcycle some distance out of town Thursday night and sustained painful injuries, including a broken rib. He claimed that a passing automobile struck his wheel.

IMPORTANT MEETING.

The woman's committee of the National Council of Defense will meet at four o'clock this afternoon at the public library. A full attendance is requested.

CARD OF THANKS.

We wish to thank our friends and neighbors for their kindness and sympathy extended us during the illness and bereavement of our little daughter.

ROMAN MORRIS AND WIFE

MILITARY FARMERS.

As a result of Food Administrator Sackett's suggestion to Washington conscientious objectors of Camp Zachary Taylor will be put to work on farms until August 15, according to a ruling of the Adjutant General.

GOT TOP PRICE.

Chas. E. Sivley, Sr., of Oak Grove, is one of the few farmers who got in on the \$2.29 price for wheat, at which the market opened here. He threshed early, his crop yielding 15 bushels to the acre, and sold the first of this week. Yesterday the price was fixed at \$2.13 a bushel, 7c less than Mr. Sivley got by being "an early bird" with a long head.

MUNNELL L. WILSON

ARRESTED FOR VAGRANCY

Munnell L. Wilson was arrested by Sheriff R. S. Hunter late Monday afternoon under the new state law for vagrancy. He was taken before County Judge Crick and his trial is set for Monday morning at 9 o'clock.

Sheriff Hunter states he would have to go to work, or he would have to arrest him, as the law made it compulsory on him to enforce it or he would be subject to prosecution for non-performance of duty and could be removed from office.—Madisonville Hustler.

TO THE PUBLIC.

We wish to thank most heartily everyone who contributed in any way to the success of the Fourth of July meeting at Virginia Park Thursday night. The committee had many obstacles to overcome and disappointments to meet, and the success of the program is due to the hearty co-operation of so many of our people.

PATRIOTIC

COMPOSER

SOUSA, AWARE OF DISLIKE FOR
 TEUTON NUMBERS, WRIT-
 ING WEDDING MARCH

(By International News Service.)

Chicago, July 5.—Lieutenant John Philip Sousa, the "March King," is at work on a march which may become the American wedding march of the future. Because of the war there is a growing dislike to Wagner's "Lohengrin" march and works by Mendelssohn, so that the American number would fill a real need.

The new military spirit has inspired Sousa to compose a new series of marches which may prove his best since the famous ones of his earlier career.

Among his new works, says the Great Lakes Bulletin, is the "Anchor and Star" march, which was dedicated to the navy. It is said to be one of the most stirring of his compositions. "Sabers on Spurs" was written for the Three Hundred and Eleventh Cavalry, which is stationed at Fort Riley, Tex. It is the first march officially written for the cavalry.
